SPECIES CHALLENGING NOT FOR OUR MEMBERS

Club members got amongst it last month in the species challenge that saw a total of 15 different species caught

Dave Hoare picked up a couple of decent Barramundi as shown here. Warren and Colleen Evennett picked up a nice grunter and fingermark, and Chris Stoter caught a salty bream and a golden snapper.

WWW.CARDWELLSPORTFISHINGCLUB.COM

The fishing competition for April is all about the feisty mangrove jack. Mark Ward for Fishing & Boating offered this advice for getting on to one of these nice fish. ".....early morning, with still water, using live baits and lures and of course they like structures, mangroves etc". Dan Kaggelis also in last months

Fishing & Boating says jacks are being caught in big numbers on skipping frogs and minnow lures under mangroves deep in the shade. To participate in this event members must send nominations through to cardwellsportfishingclub@hotmail.com or text to 0432 758483 to enable registration for the event.

Please also indicate whether you will be attending the weigh in and BBQ so we can handle the catering. Rules will be sent via email but can be downloaded from the website together with the registration form. Non-members will need to pay \$10, download and fill in a registration form together with the rules and then send the completed form and registration fee to cardwellsportfishingclub@hotmail.com

Membership Fees

All good things must come to an end and so it is with our promotional membership fees of \$10. From 1st July 2018 our annual fees will be as follows:

- Single senior membership \$30
- Family membership \$45

Please note that we are still subsidising our members fees to the Australian National Sportfishing Association (ANSA) which provides our members with the safety of liability insurance while they are out on the water.

A reminder about the NQ Sportfishing Competitions

2018 NQ Champs Update #2

Happy Snaps

During fish registration anglers will be asked to provide photos of their catch so that they can be displayed and shared with everyone during presentations.

Please bring along any cords that you may need to download your photos.

Lure Casting Comp

Between fish registration and presentations (5pm-6pm) there will be a **FREE** lure casting competition to provide some entertainment, as well as a few prizes, for those skilled enough to land their lure on target!

Major Draw Prize

Wilmar has again provided us with a fantastic Fishing & Outdoor Prize Pack valued at \$500! To be in the draw simply register a fish during fish registration on Sunday arvo and be present for the draw at the end of presentations.

Coast Guard Cooking up a Storm

The crew from Ingham Coast Guard have jumped onboard to provide us with yummy food. The Halifax hall kitchen and bar will open during fish registration and run throughout most of the evening. The Coast Guard does a great job in keeping us safe on the water so please support them by grabbing a bite to eat on Sunday evening.

Fish Registration Number... Don't Forget!

Anglers entering fish via photos please remember to display your **NAME** and the **FISH REGISTRATION NUMBER** in each photo. The fish registration number will be announced Friday afternoon via the event Facebook page and SMS to nominated club contacts and anglers supplying mobile numbers. The official rules and info document has more info.

Nominations & Enquiries

Nominations are due on the 27th April!!! For all enquiries call Adam on 0417610446.

ANSA Code of Ethics

- Obey and respect the local regulations and conventions that govern fishing in your chosen area.
- Purposefully conduct yourself in a manner such as to minimise any negative impacts on the environment. Being mindful of anchoring and speed restrictions is as important as preventing littering, pollution and habitat destruction.
- The fish's environment should be protected as well as the fish. Do not indulge in littering, in particular with discarded tackle. Disposal of offal and unwanted bait should be undertaken in a manner that is both environmentally sound and publicly acceptable.
- Respect the rights and interests of others especially other anglers and commercial fishers who are legally participating in the fishery.
- Respect the rights of property owners including those that exclude access for personal or cultural reasons and negotiate access to waters rather than trespass.
- Participate where possible in scientific, educational and community programs that benefit the fishery or recreational anglers.
- Fish taken should be killed quickly and should be prepared and preserved in such a manner as to minimise spoilage and waste. Where a fish is not wanted it should be returned in such a manner as maximises its chances of survival. Wanton destruction of undesired species is unacceptable. Limit your catch – not catch your limit.
